Plans

Option of Casual contract has a minimum term of 1 month, or 6 months if paying six months in advance or, 24 month contract. Plans are shaped, so there are no surprise charges. "Shaped" means that speeds will be reduced to 256/256kbps when your data allowance in any month has been reached.

Data Allowance

Any Time Plans data may be used at anytime of the Day Connection Speeds All speeds that have been quoted for **nbn**TM plans are the theoretical access speeds. This means that your plan will allow your connection to reach a maximum possible speed, for example, 25Mbps/5Mbps for a Wireless connection. This does not however guarantee that the devices in your home will be able to achieve the quoted speed, as the theoretical speed only refers to the speed of the overall connection that runs to your premises. Speeds for customers will be dependent on location, signal strength, volume of traffic through the network, your equipment, software and download source, if you're using Wi-Fi to connect devices to the **nbn**TM, or the number of devices you have connected at any one time. For these reasons you should not expect your actual speed to be at or near the theoretical maximum.

While we will always make sure that you are getting the most out of your **nbn**TM connection, we are unable to guarantee that you will always receive the full speeds of your plan.

Wireless Plans, Terms and Conditions
